

biodiversity principles and conservation pdf

Biodiversity is not evenly distributed, rather it varies greatly across the globe as well as within regions. Among other factors, the diversity of all living things depends on temperature, precipitation, altitude, soils, geography and the presence of other species. The study of the spatial distribution of organisms, species and ecosystems, is the science of biogeography.

Biodiversity - Wikipedia

The purpose of this document is to provide a primer on the concepts and principles that support cooperative actions to conserve B.C.'s rich biodiversity.

Ecological Concepts, Principles and Applications to

A biodiversity action plan (BAP) is an internationally recognized program addressing threatened species and habitats and is designed to protect and restore biological systems. The original impetus for these plans derives from the 1992 Convention on Biological Diversity (CBD). As of 2009, 191 countries have ratified the CBD, but only a fraction of these have developed substantive BAP documents.

Activities. A biodiversity activity from the San Diego Zoo. "Biodiversity Surey" is a unit survey using the school grounds and takes approximately 12-14 school days. The "BIO-RING" activity investigates biodiversity and biomass on the school grounds. A worksheet to record results is included. "Biodiversity Around Our School" is another activity to investigate the biodiversity of your school ...

Diversity of Life - Awesome Science Teacher Resources

What is biodiversity? Biodiversity is the variety of all living things and ecosystems. It includes plants, animals, fungi and micro-organisms as well as the ecosystems (on land or in water) where they live.

Your views on the next New Zealand Biodiversity Strategy

Compared to other threats to biodiversity, invasive introduced species rank second only to habitat destruction, such as forest clearing. Of all 1,880 imperiled species in the United States, 49% are endangered because of introduced species alone or because of their impact combined with other forces.
