Leaky Valve After Triple Bypass Surger. healthy12880 posted: ... Last week, she had her first echocardiogram since her procedure, and her cardiologist suspects she now has a leaky valve. Is this common? If so, would surgery for the repair of the valve be quite invasive? My mom is not sure she can handle another open heart procedure.

What I meant by the leaky hose from the control unit was the water was dripping out of the brine side of the hose after I turned the bypass valve to "bypass" and removed the hose from the brine tank. In other words, I pulled all the parts out of the brine tank to clean them, and while the hose was just hanging there, it was dripping water.

Objective: Operations coupled with cardiopulmonary bypass may provoke a systemic inflammatory response, and it has been suggested that this response causes capillary leakage of proteins, edema formation, and even organ failure. However, capillary leak syndrome is mainly a clinical diagnosis and has not been verified as yet by actual demonstration of protein leakage from the circulation.
