KRAS mutations are common in pancreatic and colorectal cancers and are associated with lack of response to anti-epidermal growth factor receptor therapy. Ras is an established therapeutic target that has long eluded efforts to develop specific inhibitors, while targeting downstream signaling pathways has proven largely ineffective, highlighting a need for rational combination strategies to ...

Pediatric Gastroesophageal Reflux Clinical Practice

The gastrointestinal tract (digestive tract, digestional tract, GI tract, GIT, gut, or alimentary canal) is an organ system within humans and other animals which takes in food, digests it to extract and absorb energy and nutrients, and expels the remaining waste as feces. The mouth, esophagus, stomach and intestines are part of the gastrointestinal tract.

ANTERIOR CUTANEOUS NERVE ENTRAPMENT SYNDROME. ACNES is the most likely diagnosis. A study published in 2013 indicated that many cases of functional abdominal pain may actually be undiagnosed cases of chronic abdominal wall pain such as ACNES. 25 The condition, first described in 1972, 26 is thought to be caused by thoracic cutaneous intercostal nerve entrapment between the abdominal muscles ...

Not all abdominal pain is gastrointestinal | Cleveland

Defects in mitochondrial function are increasingly recognised as central to the pathogenesis of many diseases, both inherited and acquired. Many of these mitochondrial defects arise from abnormalities in mitochondrial DNA and can result in multisystem disease, with gastrointestinal involvement common.

x Neuroblastoma is an embryonic cancer arising from neural crest stem cells. This cancer is the most common malignancy in infants and the most common extracranial solid tumor in children. The clinical course may be highly variable with the possibility of spontaneous regression in the youngest patients and increased risk of aggressive disease in older children.
