In economics, BRIC is a grouping acronym that refers to the countries of Brazil, Russia, India and China, which are all deemed to be at a similar stage of newly advanced economic development. It is typically rendered as "the BRICs" or "the BRIC countries" or "the BRIC economies" or alternatively as the "Big Four". A related acronym, BRICS, adds South Africa.

Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.

3 1 The European Union (EU) has adopted virtually all International Financial Reporting Standards (IFRSs), though there is a time lag in adopting several recent IFRSs.

### **International Financial Reporting Standards (IFRS)**

The performance of the Eurozone economy is inextricably linked to the health of its banking system. That means the economy will likely stagnate unless European banks can build robust balance sheets, earn a competitive return on equity, and generate adequate capital to support faster growth and innovation.
