Four Treatises of Theophrastus Von Hohenheim Called

These four treatises illustrate four different aspects of Paracelsus' work. The first gives a passionate justification of his character, activities, and views, and gives a picture of the man and his basic character. The second treatise is a study of the disease of miners, with whom Paracelsus had spent a great deal of time.

Four treatises of Theophrastus von Hohenheim, called

Here are collected four treatises which illustrate four different aspects of Paracelsus' work. The first gives a passionate justification of his character, activities, and views, and gives a picture of the man and his basic ideas. The second treatise is a study of the diseases of miners, with whom Paracelsus had spent a great deal of time.
