Computer Interaction Research Symposium . Roskilde University . 18th November, 2010 . Edited by . ... The aim of the symposium is to stimulate Danish research in human-computer interaction by providing an overview of current activities and an opportunity for networking. To do this we adopt a broad definition of HCI research and encourage

Human-computer interaction is now a mature and still dynamically evolving part of this area, which is represented in IFIP by the Technical Committee 13 on HCI. In this WCC edition it was interesting and useful to have again a Symposium on Human-Computer Interaction in order to present and discuss a number of contributions in this field.
