CISM Certified Information Security Manager All-in-One

The Industrial Revolution was the transition to new manufacturing processes in Europe and the US, in the period from about 1760 to sometime between 1820 and 1840. This transition included going from hand production methods to machines, new chemical manufacturing and iron production processes, the increasing use of steam power and water power, the development of machine tools and the rise of ...

The article presents a proposal for multidisciplinary scientific platform, as a basis for security studies. it includes not only the military but mostly non-military aspects of security. An emphasis is put on security culture, the main pivot of the

Three Pillars of Security Culture | Juliusz Piwowarski

The term "prisonâ€“industrial complex" (PIC), derived from the "militaryâ€“industrial complex" of the 1950s, describes the attribution of the rapid expansion of the US inmate population to the political influence of private prison companies and businesses that supply goods and services to government prison agencies for profit. The most common agents of PIC are corporations that contract cheap ...
