Kom Firin is an archaeological site in Egypt, located in the southwestern border of the Nile Delta, just west of Kom el-Hisn. Most of the archaeological informations regarding the site were obtained from the 2002–2010 excavation campaign organized by the British Museum and led by Neal Spencer. History. Earliest attestations of Kom Firin date back to the reign of Ramesses II of the 19th ...

around the site of Naukratis (Kom Geif) to include sites near modern villages such as Kom Firin and Kom Hadid. One problem with excavating in the Delta, besides the large quantities of water is the issue of seabed digging. Bailey notes the issues that many archaeologists face when interacting with local farmers (1999).
