1 + n. 2 particles, and nonlinear if this is not always true. Here, superposition means that the joint probability distribution is a product, that is the particles behave independently. Thus in this view, nonlinearity corresponds precisely to the word "interdependent" of the definition of complexity science.

Use the method of iteration to derive individualised pharmaco-kinetic parameters from serum drug concentration data. Apply nonlinear pharmacokinetics to describe steady-state plasma concentrations following parenteral and/or oral phenytoin therapy. Introduction Pharmacokinetics provides a mathematical basis to assess the time course
