number and size influenced by root zone calcium (Fig. 1). Our objective in this study was to determine the influence of in-season, Ca fertilization on tuber size, tuber number and Ca content of the tuber. Field soil was used to examine the influence of soil calcium on tuberization under close to commercial production conditions.

Influence of Supplemental Calcium Fertilization on Potato

This can be achieved by increasing the calcium dosage of the recipe. By increasing the calcium dosage the setting temperature of the fruit preparation will increase to above the cooking temperature so that a pre-gelling of the product occurs. Fig. 2: Schematic presentation of the influence of calcium concentration on setting temperature, gel ...

july 17,1910 Influence of Calcium and Magnesium on Plant Growth 593 Pisciotta (28), an Italian investigator, reports the analysis of 60 soils which show a wide variation in the lime-magnesia ratio, due to the variation in the lime content. Patterson (25) found that magnesian lime, which is claimed to be poisonous, gave the highest yields.
